

Thanks for downloading Samsara Room on Windows!

Just unzip the file and double click on the Samsara Room (PRESS HERE TO PLAY).exe to run the game. No need to use the other files in the .zip.

Settings:

- Are encountering a glitch or game breaking bug? Try to reset a level (Settings -> Reset)
- Is the game running slow? Change the graphics to low/medium/high.
- Choose you language with the world icon
- Turn off/on Music and Sound
- Make sure to make copies of your save game in Documents -> Rusty Lake -> SamsaraRoom -> SaveGame.sav, when you update the game.

Please send us an email via info@rustylake.com if any bug/issue occurs and we will try to find a solution as soon as possible. We want to keep everyone happy, when launching a premium game!

We will unfold the Rusty Lake story one step at a time. So check RustyLake.com every day for new content and follow us on:
